

# ReConvales® AntiPhos

Complementary feed for cats and small dogs

**With calcium carbonate**

WITH  
PHOSPHATE  
BINDER

The calcium carbonate contained in **ReConvales® AntiPhos** reduces phosphate intake from the diet, as it binds phosphate contained in the food and thus decreases phosphate absorption in the intestine.

In addition, **ReConvales® AntiPhos** supplies animals with fluid, vitamins and trace elements. It is also exceptionally palatable, which encourages poorly eating animals to take in food.

**Composition:**

Vegetable by-products, minerals (calcium carbonate 3.6%), meat and animal by-products, oils and fats, sugar

**Analytical constituents:**

|               |      |             |      |
|---------------|------|-------------|------|
| Crude protein | 4.2% | Crude fibre | 0.3% |
| Crude fat     | 4.8% | Crude ash   | 4.7% |
| Moisture      | 81%  |             |      |

**Additives per 1000 ml:***Nutritional additives:*

|                                                  |          |
|--------------------------------------------------|----------|
| Vitamin A                                        | 2,000 IU |
| Vitamin D <sub>3</sub>                           | 960 IU   |
| Taurine                                          | 1,200 mg |
| Iron from iron(II) glycine chelate hydrate       | 14 mg    |
| Manganese from glycine manganese chelate hydrate | 2 mg     |
| Zinc from glycine zinc chelate hydrate           | 7 mg     |

**Other information:**

10 ml contain 360 mg calcium carbonate.

No colourants or preservatives. Free from dairy products, soy and gluten.

**Feeding recommendation:**

To be given with food, at each meal.

|                              |           |        |
|------------------------------|-----------|--------|
| Cats receive, at a weight of |           |        |
| up to 5 kg                   | 2 x daily | 5 ml   |
| over 5 kg                    | 2 x daily | 7.5 ml |

|                      |           |      |
|----------------------|-----------|------|
| Dogs receive         |           |      |
| per 5 kg body weight | 2 x daily | 5 ml |

If required, the product can be given permanently.

**Notes:**

Water should always be freely available.

After approx. 4 weeks, the veterinarian should determine the serum phosphate level again and, if necessary, adjust the daily amount of **ReConvales® AntiPhos** accordingly.

Shake before use!

After opening, store in the refrigerator and use within 10 days.

**Shelf life:** 36 months

**Pack size:** 3 x 90 ml bottles
