

ReConvales® Tonicum

Dietary supplement for dogs

For nutritional and physiological restoration and convalescence

Following operations, infections and gastrointestinal disorders, pets often suffer from a loss of appetite and digestive insufficiency. **ReConvales® Tonicum** provides recovering patients with valuable nutrients in liquid form without putting unnecessary strain on the digestion process. This tasty tonic stimulates pets to eat of their own accord.

ReConvales® Tonicum stimulates the appetite and provides animals with fluids and high-quality protein, vitamins, trace elements and minerals. In addition, the liquid form facilitates the consumption of vital nutrients even with painful tooth and gum ailments.

Essential nutritional physiological characteristics:

High energy content, high concentration of important nutrients and easily digestible raw materials

Composition: Meat and animal by-products, vegetable by-products, oils and fats, minerals

Analytical components: Crude protein 5.0%, crude fat 3.3%, crude fibre <0.3%, crude ash 0.8%, moisture 84.3%.

Feeding recommendation:

For dogs weighing

Up to 15 kg: ½ to 1 bottle per day

Over 15 kg: 1 bottle per day

Recommended period of use: Until full recovery.

ReConvales® Tonicum can be given over 1 – 6 days, as a monthly treatment or on a permanent basis. Seek the advice of a vet before using this food or extending its period of use.

Do not use ReConvales® Tonicum as the sole source of nutrition, since it contains too little energy. Suitable on its own or as an addition to wet or dry food. The product should be served at room temperature or slightly heated.

Note:

Shake well before use! Once opened, store the bottle in a cool place and use within 10 days

Durability: 36 month

Trading form:

6 x 90 ml bottles

Service

Ask about our pet owner information leaflet "ReConvales" on the topic of loss of appetite and food refusal.
