

# RodiCare® Uro Bites

Feed supplement for pet rabbits and guinea pigs to support the urinary tract.

Version 06/26

**RodiCare® Uro Bites** are premium complementary feed bites for ornamental rabbits and guinea pigs, specially formulated to provide nutritional support for the urinary tract.

Alpine grass meal forms the high-quality, fibre-rich base of the bites and provides natural plant compounds as the foundation of a species-appropriate diet. Goldenrod and horsetail support urine production and thereby contribute to the natural flushing of the urinary tract. Nettle complements the formulation with selected plant compounds to help support normal urinary tract function. The high vitamin C content encourages water intake and thereby supports the body's natural excretory processes. In addition, vitamin C, as an antioxidant, contributes to the protection of cells from oxidative stress.

The bites are gently cold-pressed to preserve their valuable ingredients as effectively as possible. Their highly palatable recipe allows them to be fed easily as a tasty reward and ensures excellent acceptance. The dust-free, fibre-rich formulation also supports natural tooth wear. In addition, **RodiCare® Uro Bites** are free from grains, added sugar, and preservatives.

#### Composition:

Alpine grass meal 44.2 %, cranberry, dried birch leaves, goldenrod 6.0 %, dried orthosiphon leaves, nettle 5.0 %, horsetail 5.0 %, restharrow root, blackcurrants, dried lime leaves, raspberry, pumpkin seed cake

#### Analytical components:
