

RodiCare® Derma

Complementary feed for dwarf rabbits, guinea pigs, and small rodents

To support skin, fur, and claws

Special plant oils serve as a source of omega-3 and omega-6 fatty acids, which significantly contribute to maintaining normal skin function.

Algae oil is rich in docosahexaenoic acid (DHA).

These plant oils also provide natural α - and γ -tocopherols, which are essential for the breakdown of free radicals.

Cleavers and horsetail are rich in silicic acid.

Poplar bark contains salicin, which is converted in the body into salicylic acid.

Phytosterols are deposited in the upper layers of the skin and help improve the skin's barrier properties.

Zinc, selenium, and biotin are essential for the formation of healthy skin and fur.

RodiCare® Derma contains a wide range of nutrients that are particularly important for the development of skin, fur, and claws.

It consists of oils with a high content of essential fatty acids and α - and γ -tocopherols.

In addition, RodiCare® Derma is enriched with phytosterols, which naturally occur in small amounts in plants, as well as zinc, selenium, and biotin.

Composition:

Linseed oil 28%, Soybean oil 21.5%, [Cleavers, horsetail, poplar bark] suspended in sesame oil, 5.7% each, Sunflower oil 5.3%, Borage oil 4.5%, Algae oil [Schizochytrium sp.] 2.5%, Phytosterols 1.5%, Corn germ oil 1%, Horsetail powder 0.05%

Analytical components:

Crude protein	0,2 %	Crude fiber	0,9 %
Crude fat	85,5 %	Crude ash	0,3 %
Omega-3 fatty acids	17,6 %		

Additives per 1000 ml:

Nutritional additives:

Vitamin E	10.000 mg
Vitamin C	20.000 mg
Vitamin D ₃	20.000 I.U.
Selenium [as sodium selenite]	1 mg
Zinc [as zinc sulfate, heptahydrate]	200 mg
Biotin	50 mg

Flavouring Substances: Rosemary oil

600 mg

Feeding recommendation:

Administer with food. Depending on body weight, give:

Mouse, dwarf hamster:	1 Pump
Hamster, Degu:	2 Pumps
Rat, Chinchilla:	3 Pumps
Guinea pig:	3 – 5 Pumps
Dwarf rabbit:	5 – 8 Pumps

One pump stroke equals approx. 0.2 ml.

The dosage should ideally be divided into two or more meals.

Recommended feeding duration:

2 months. Can be extended if necessary.

Due to the elevated content of additives, do not exceed the recommended daily amount.

Notes:

Store below 25 °C.

Use after opening.

Packaging format:

50 ml dispenser
