

RodiCare® Immun

Complementary feed for rabbits, guinea pigs and small rodents

With echinacea and mumijo

Mumijo contains nearly all essential trace elements.

Cape pelargonium root, boneset herb, echinacea, and arborvitae [thuja] supplement the diet with secondary plant compounds.

NO ADDED SUGAR

RodiCare® Immun contains the natural substance mumijo, which provides nearly all essential trace elements. These are required for a properly functioning immune system; a deficiency in trace elements can weaken immune defences.

RodiCare® Immun also delivers plant ingredients that supplement the diet with secondary plant substances. Additionally, it includes soothing natural flavorings (taiga root extract and ivy extract).

Composition:

Echinacea, macerated 3%, [Boneset herb, arborvitae, Cape pelargonium] macerated 1% each, Mumijo 1%, [Echinacea, boneset herb, arborvitae, Cape pelargonium] ground 0.1% each

Analytical Constituents:

| | | | |
|---------------|--------|-------------|--------|
| Crude protein | 0,5 % | Crude fibre | 0,4 % |
| Crude fat | 0,6 % | Crude ash | 0,6 % |
| Moisture | 97,4 % | Sodium | 0,05 % |

Additives per 1000 ml:

Flavouring compounds:

| | |
|--------------------|-------|
| Ivy extract | 10 ml |
| Taiga root extract | 10 ml |

Feeding recommendation:

Administer 2 times daily over food or directly into the mouth.

According to body weight:

Hamster, degu 0.05 – 0.1 ml

Rat, chinchilla 0.1 – 0.2 ml

Guinea pig 0.2 – 0.3 ml

Dwarf rabbit 0.3 – 0.6 ml

Rabbit 0.6 – 0.8 ml

Recommended feeding duration:

Maximum 8 weeks.

Notes:

Shake well before use!

Rinse syringe after use.

Store below 25°C and protect from light.

Use after opening.

Shelf life: 24 months

Pack size:

15 ml glass bottle with dosing syringe
